Risk Management
Health & Safety Compliance
Human Resource Management
Chemical Management

The **Digital:Framework** suite of products focus on effective risk management, health and safety compliance and human resource management. Used extensively in the oil industry since 2001, the upgraded product is now available for use in all business sectors.

Digital:Framework Software:

- > Manage your most important resource effectively and safely
- > Allow all risks to be viewed and compared within one system
- > Allow compliance with Health, Safety and environmental requirements
- > Provides a fully flexible and configurable system
- > Increases visibility and control
- > Reduces administrative cost and risk
- > Allows multi-location, multi-user hierarchical access
- > Tracks and highlights problem areas
- > Assigns and targets corrective actions with one click
- > Communicates your risks and safety levels effectively to all stakeholders

Digital:Risk Management

Controlling Risks in Petroleum Retail since 2001

Digital:Risk Management is a comprehensive operational and task based risk assessment system. The 2011 version has been reworked with Industry specific versions for all markets including:

- > PETROL FILLING STATIONS
- > FUEL STORAGE & DISTRIBUTION
- > HOTELS, BARS & RESTAURANTS
- > LEISURE CLUBS & FACILITIES
- > OFFICES
- > DISTRIBUTION CENTRES
- > HEAVY INDUSTRIAL MANUFACTURING FACILITIES

Digital:Risk Management is tried and tested within industry. The software was pioneered for the petroleum Retail Industry together with seven major UK oil companies. The fuel storage and distribution version was developed with the industry experts from the Energy Institute.

With **Digital:Risk Management**, you can concentrate your risk management efforts in one place and cover:

- > OPERATIONAL RISK MANAGEMENT – HEALTH, SAFETY, ENVIRONMENT AND PROPERTY
- > TASK BASED RISK MANAGEMENT
- > STRATEGIC RISK MANAGEMENT – SECURITY, COST AND IMAGE
- > PERSONNEL REGISTERS
- > RISK ASSESSMENT REGISTER
- > TRAINING REGISTERS
- > PPE REGISTER
- > ACCIDENT / INCIDENT RECORDS
- > AUDIT TRAIL

Effective compliance & double digit reduction in your premiums

Digital:Framework delivers a coherent platform for continual corporate risk reduction. **Digital:Framework** is also a platform for consistent delivery of year on year insurance premium savings. In the UK, **Digital:Framework** has joined forces with **The Insurance Partnership** to provide a common structure for efficient and targeted health & safety and human resource management. By combining the **Digital:Framework** suite of software with earnings transparency and a combined commitment to service, both **The Insurance Partnership** and **Digital:Framework** can help you find the best value insurance tailored to your needs.

Using **Digital:Framework** consistently delivers cost savings. Utilising **Digital:Framework**, and by adding a solid structure to risk management, has routinely enabled our customers to find further savings when assessing the design and placement of their existing insurance – with savings in premiums in excess of 20%. **Digital:Framework** can either help you present an “in principle” solution for savings potential or analyse the actual figures from your current insurance arrangements. All our work is undertaken in full confidentiality.
